Brief: URANIUMSA

Yellow cake find

A South Australian uranium mining junior company has made a uranium discovery that has gone largely unnoticed, an analyst says. A report from BGF Equities said UraniumSA, a company with a market value of \$5.7 million, had an inferred resource of 12 million tonnes at its Blackbush deposit near Whyalla. "At the current share price it is clear the market has not factored in the recent success," the report said.
