Brief: URANIUMSA

Cowell exploration

Archer Exploration Ltd has signed a farm-in agreement with UraniumSA Limited to earn an interest in all minerals (except uranium) on USA's Wild Horse Plains and Elbow Hill tenements located adjacent to Archer's North Cowell project. The combined projects give Archer a contiguous land holding of 1042 km² over an area which contains known manganese and iron occurrences. The farm-in agreement will allow Archer access to manganese, iron and copper in the designated region.
